Photographic Prints

Prints supplied are digital 'print-lab' prints on archive quality photographic paper. The master digital images are usually of high enough resolution for printing sharp images in a variety of sizes up to at least 10x15 inches. Note that all print sizes are in inches as per common industry sizes.

The pricing of prints not only depends on the size of a print, but on how many copies of the same image are purchased, with special discounts applying to 4x6, 5x7 and 6x8 prints if they are purchased in combination with any print of 8x10 or larger size, of the same image – see following price lists for more details.

Price list (AU\$) when only a single print size of the same image is purchased on the same order.

Print Size (inches)	Price/Print (1 of prints)	Quantity Discounts	
		Quantity	Price/Print
4x6	\$5.00	3+	\$4.00
5x7	\$8.00	2+	\$6.00
6x8	\$12.00	2+	\$8.00
8x10	\$15.00	2+	\$10.00
8x12	\$16.00	2+	\$11.00
10x15	\$22.00	2+	\$17.00
11x14	\$26.00	2+	\$21.00
12x16	\$28.00	2+	\$23.00
12x18	\$30.00	2+	\$25.00

Larger size prints can be supplied – sizes and prices on application.

Special discount prices (AU\$) for 4x6, 5x7 and 6x8 prints if purchased in combination with 8x10 or larger print size, of the same image, on the same order.

Print Size (inches)	Price/Print (if purchased in combination with 8x10 or larger prints of the same image)
4x6	\$2.00
5x7	\$4.00
6x8	\$6.00

Digital Files

Images on the website and for emailing are about 600x900 pixel JPEG files with a copyright watermark, which should be adequate for customers to choose which printed image(s) they might want to purchase. Please enquire if you have a specific requirement for electronic files, such as publishing.

Each image has a unique filename assigned, which is based on the point-in-time it was taken, plus the digital camera filename, and in some cases a variation of the image, like wide, zoom etc. Please enquire if you have a request for a custom cropping edit to be created from a master image. The filename format used is:

YYYYMMDD-HHMMSS_{'camera filename'}-{'optional variation descriptor'} – e.g.

20100124-140609_TEC8771, which means it was taken on Sunday 24 January 2010 at 14:06:09 and had an original camera filename of TEC8771.

Ordering Prints

All prices quoted on this information sheet are in Australian dollars (AU\$)

Prints can be on matte or gloss finish paper for sizes up to 6x8, and with or without a border. Sizes of 8x10 or larger are only available on matte finish paper, but also with or without a border. However, unless otherwise specified, images will be printed on matte finish paper without a border.

If delivery of prints is required, there is a minimum packaging and postage charge of AU\$5.00 per order for normal letter category delivered within Australia. Where normal letter category postage delivery isn't appropriate, the price for packaging and delivery will be quoted prior to processing an order.

Also, please note that print sizes of 5x7, 6x8, 8x10, 11x14, and 12x16 are cropped down on the long edge from the native 2x3 aspect ratio master images, thereby losing some of the original image content. However, most images are suitable for cropping to these sizes.

To order prints, create a list for each unique combination of:

filename, print size, print paper finish, with or without a border, and quantity.

Forward the list along with any questions and provide the delivery address or pickup details etc. A quotation plus payment options will then be returned for your confirmation before proceeding with the order.
